ELUYENI PROMISE OLUWADAMILARE

Supply Chain & Logistics Professional

Igando, Lagos State, Nigeria | +234 812 437 6667 | promisedamilare111@gmail.com | linkedin.com/in/eluyeni-promise-4862862a5

PROFESSIONAL PROFILE

Supply chain and logistics professional with strong analytical capabilities in transportation planning, logistics coordination, performance tracking, and regulatory compliance. Skilled in monitoring KPIs such as On-Time Delivery (OTD), Turnaround Time (TAT), inventory utilization, and process efficiency. Holds an M.Sc. in Transport and Logistics (Distinction) alongside hands-on operational experience, bringing a research-informed, data-driven approach to optimizing logistics workflows and improving supply chain visibility.

CORE SKILLS

- Supply Chain & Logistics Analysis & Reporting
- Transportation Planning, Dispatch & Route Optimization
- Inventory Control & Equipment Utilization
- Data Analysis & Research Methods
- Fleet & Telematics Tracking: MIX Telematics, Nova Tracker
- KPI Monitoring (OTD, TAT, Cost & Performance Metrics)
- Regulatory, Safety & Compliance Management
- Stakeholder Coordination & Vendor Management
- Microsoft Excel (Data Analysis), Word & PowerPoint

PROFESSIONAL EXPERIENCE

Logistics Coordinator | *Transport Services Limited (TSL)* Aug 2025 – Present

- Analyze daily logistics operations including truck scheduling, dispatch, and delivery performance.
- Track and report logistics KPIs using MIX Telematics and Nova Tracker to improve service efficiency and supply chain visibility.
- Identify delivery delays and operational bottlenecks, implementing corrective actions that reduced On-Time Delivery (OTD) failure on the managed fleet by over 60%.
- Enforce driver compliance with pre-trip vehicle inspection checklists, supporting fleet safety and accountability standards.
- Lead reconciliation and tracking of driver shortages, recovering over 80% of shortage value through structured liability follow-up.
- Coordinate drivers, vendors, and internal stakeholders to ensure smooth flow of goods.
- Maintain accurate operational data to support cost control and performance improvement initiatives.
- Ensure compliance with transportation regulations and safety standards.

Supervisor | *FAS Nigeria Limited* Nov 2023 – Apr 2024

- Supervised equipment maintenance operations, ensuring optimal availability for warehouse and logistics activities.
- Conducted preventive maintenance analysis, reducing downtime by 20%.
- Managed maintenance records and supported cost estimation and scheduling decisions.

Graduate Assistant | *Lagos Maritime and Business School Academy* Nov 2022 – Oct 2023

- Supported research, data collection, and reporting activities relevant to logistics and transport studies.
- Maintained academic and research databases, ensuring data accuracy and organization.
- Assisted in performance assessment and reporting.

Research Personnel (Remote) | *His Majesty Consults* Nov 2021 – Dec 2022

- Conducted supply-chain-related research and data analysis for strategic planning.
- Prepared analytical reports and presentations to support decision-making.
